

MACH 1 EVO

ROUTING

MACH 1 EVO

The budget sized PCD Router with big performance

The **Mach 1 Evo** is a new concept in budget tooling, offering many of the benefits of a high performance Z3 router at a fraction of the cost

"TWO PCD PLUNGING TIPS"

The innovative design of this Z2+1 router includes a **higher shear angle for feed speeds up to 20 mt/min** and **two PCD plunging tips** for robust ramping capabilities.

Together with the **P-Series coating** you can now **double your tool-life** compared to a standard Z1+1 router.

Use the new Mach 1 Evo with Aerotech® to optimise your routing operations and **go dust free**.

Innovative Z2+1 design

- Two PCD plunging tips for robust ramping capabilities
- Double tool-life compared to a standard Z1+1 router

Fast feed speed

- Feed speed up to 20 mt/min*
- Increase your productivity with the fastest budget router you can choose

P-Series quality

- Diamond cutters with P-Series special protective coating
- Excellent wear resistance and double tool-life compared to non-coated standard tools

High shear angle

- 50% higher shear angle
- Reduced cutting pressure
- High quality edge finish
- Less metal fatigue and better tool-life

*Parameters based on ideal conditions.
